## Top 10 Reasons to Buy

### 1. Designed for the business user

With PDF creation speeds up to 3x faster than the competition and unrivalled PDF to Office conversion capabilities, you get everything you need without the cost and complexity of high-end design and production tools.

### 2. Create PDF files from any application

Instantly create 100% industry-standard PDF files that are fully compliant with other PDF viewers for reading, sharing, and printing.

### 3. Never re-type a PDF document again

Convert existing PDF files into fully-formatted Microsoft Word, Excel, PowerPoint, XPS, and Corel WordPerfect files with just one click.

### 4. Edit and optimize PDF files

Edit, annotate, correct typos and even touch up objects directly within PDF files. Leverage built-in optimizer tools to reduce the size of large PDF files for efficient sharing.

### 5. Put an end to printing and manually filling-in forms

PDF forms are great – if you can fill and save them online. With FormTyper™, you can make any PDF form fillable with a single click.

### 6. Organize information and share with PDF packages

Wrap-up multiple documents and file types into a single PDF package. Managing document security and transferring files has never been easier.

### 7. Simplify document review

Put a stop to endless review cycles. Gather everyone's comments and changes in a single "master document" and accept or reject changes instantly.

### 8. Turn scanned PDFs into searchable PDFs with 1-click

Create fully-formatted, searchable, and editable PDF files from your static, scanned, uneditable PDF files with a single click from the converter menu.

### 9. Archive your critical documents

With advanced Outlook integration, archiving entire folders of mail can be done at the touch of a button, and with improved PDF/A support you can ensure that your critical documents will display and print properly for the next century.

### 10. Work the way you want

A customizable, user-friendly interface has been coupled with toolbars that group common functionality, removing the need to hunt for hidden features and simplifying the process of how you work with PDF files.

## SECURE SENSITIVE INFORMATION

Drag and drop a security scheme to quickly and easily apply security settings to your documents, or apply digital signatures, password security, or certificate security with 128-bit encryption in order to secure your documents against unwanted usage or modifications.

## System Requirements:

- Intel® Pentium® or higher processor or
- Microsoft Windows: Windows 2000 (SP 4), Windows XP (SP 2), Windows XP 64-bit Edition, Windows Vista 32-bit or 64-bit Editions, Windows 2003 Server
- Microsoft Internet Explorer 5.5 or above
- 256MB of memory (RAM), 512MB recommended
- 200MB of free hard disk space for application files plus 50MB working space during installation
- SVGA monitor with 256 colors, but preferably 16-bit color (called High Color in Windows 2000 and Medium Color in XP) and 800 x 600 pixel resolution
- Windows-compatible pointing device
- CD-ROM drive for installation
- Web access needed for product registration, activation and obtaining live updates for the program.
- If Windows Vista is not installed; Microsoft .NET Framework 3.0 is required in order to save to DOCX, XLSX and PPTX file formats (Microsoft Office 2007 formats) The Microsoft .NET Framework 3.0 can be installed on Windows XP but cannot be installed on Windows 2000.
- Sound card is optionally required for using the functionality of the supplied Text-To-Speech Engine

**Note:** Performance and speed will be enhanced if your computer's processor, memory, and available disk space exceed minimum requirements. This is especially true when converting very large color PDF files. Hyper-thread enabled or multi-processor systems can deliver better performance.
